

Figure 43: *Archaeobuthus estephani*. Pedipalpal patella showing four external trichobothria, *eb₁*, *esb₁*, *est*, and *et₁*.

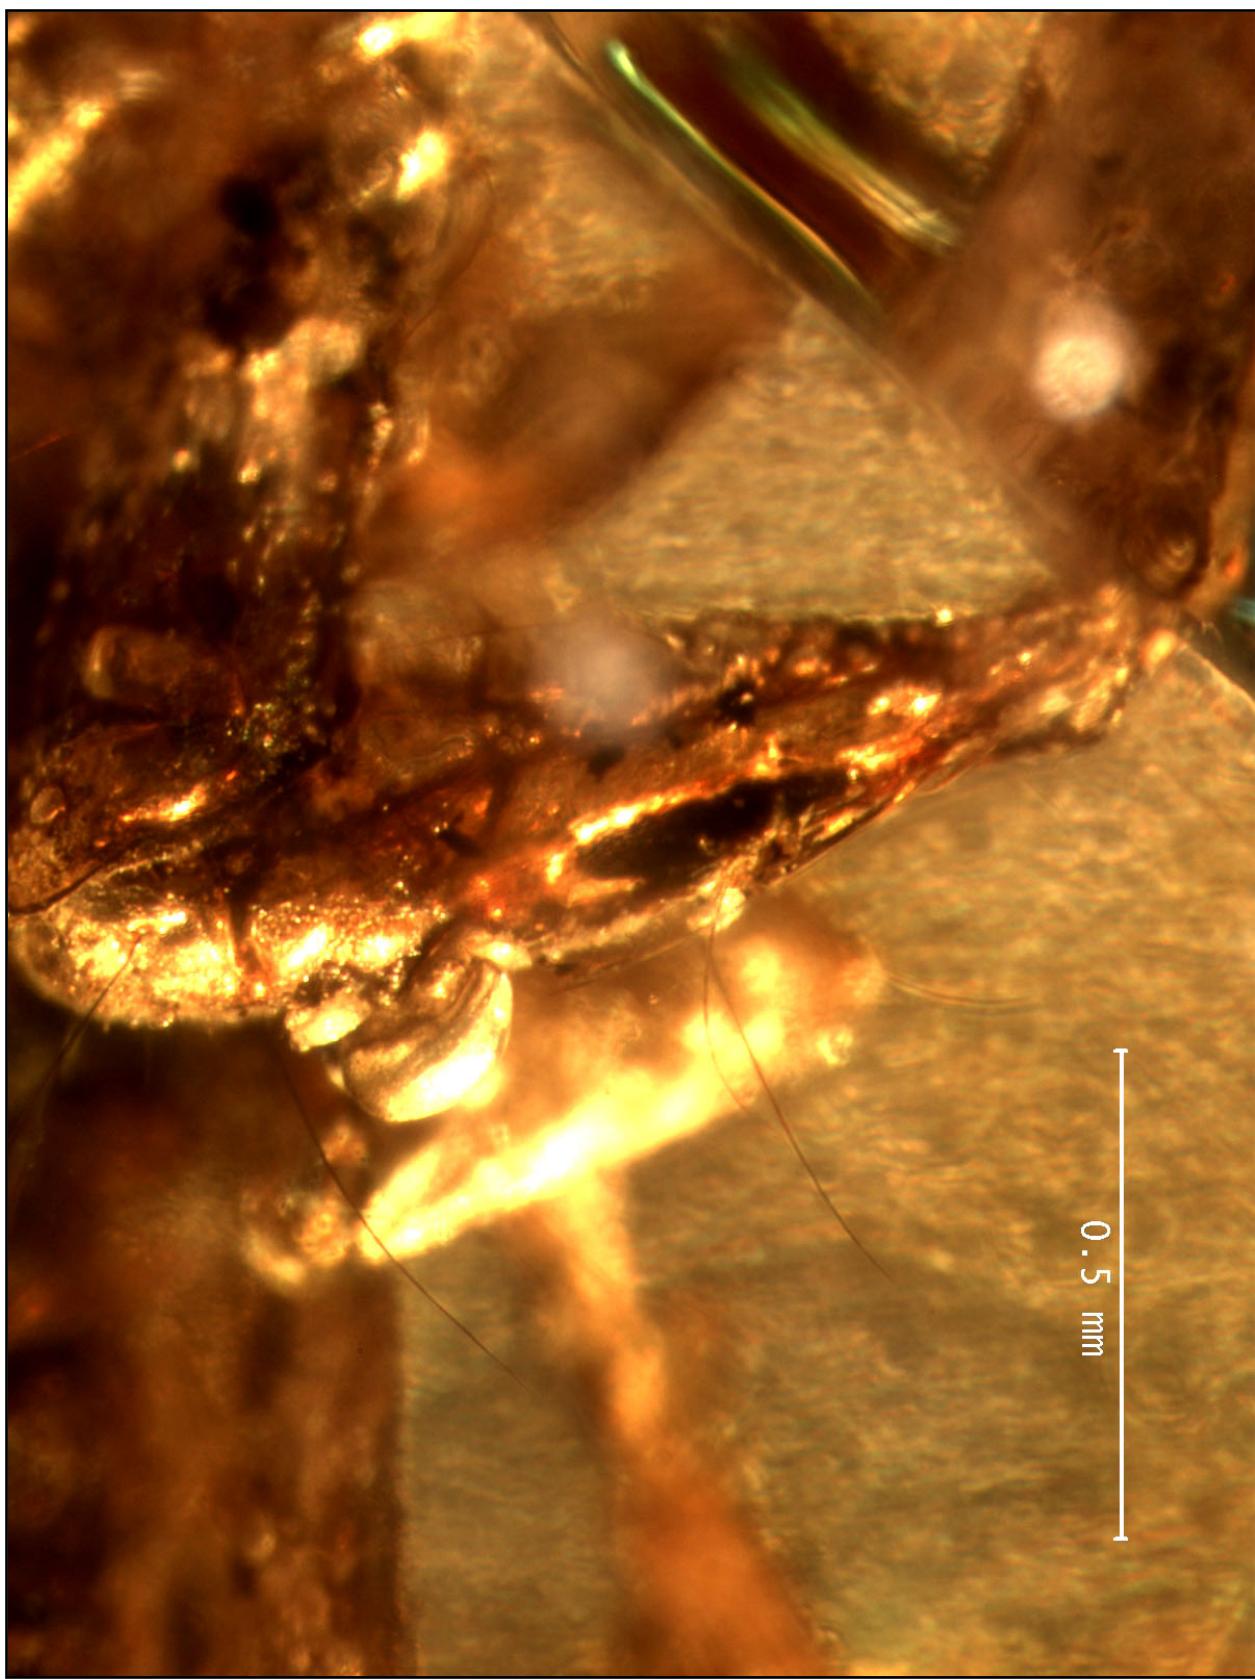

Figure 44: *Archaeobuthus estephani*. Pedipalpal patella showing trichobothria d_1 , d_3 , i , esb_1 , est , and et_1 .

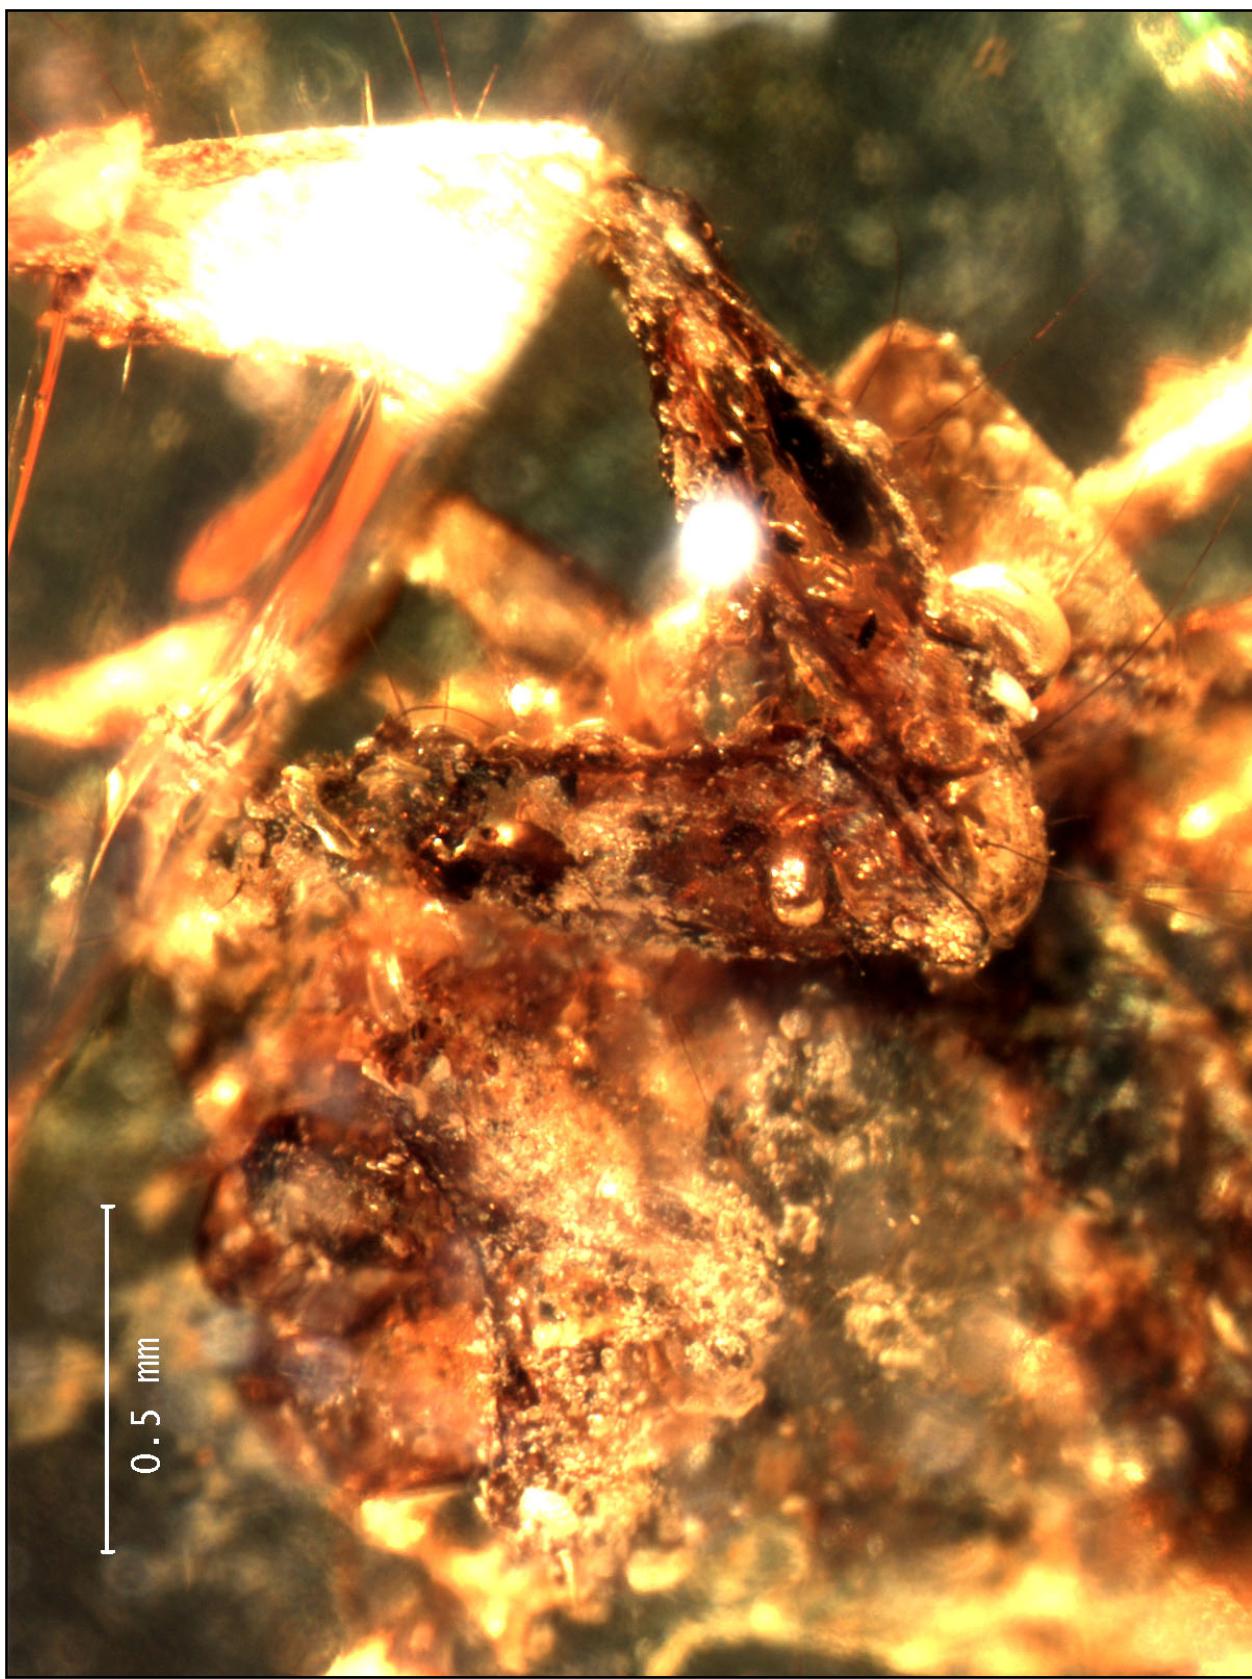

Figure 45: *Archaeobuthus estephani*. Pedipalpal femur and patella showing trichobothria. Patella: d_1 , d_3 , eb_1 , esb_1 , est and et_1 ; femur: d_2 , d_3 , d_4 , d_5 , e_3 , i_1 , i_2 , and i_3 .

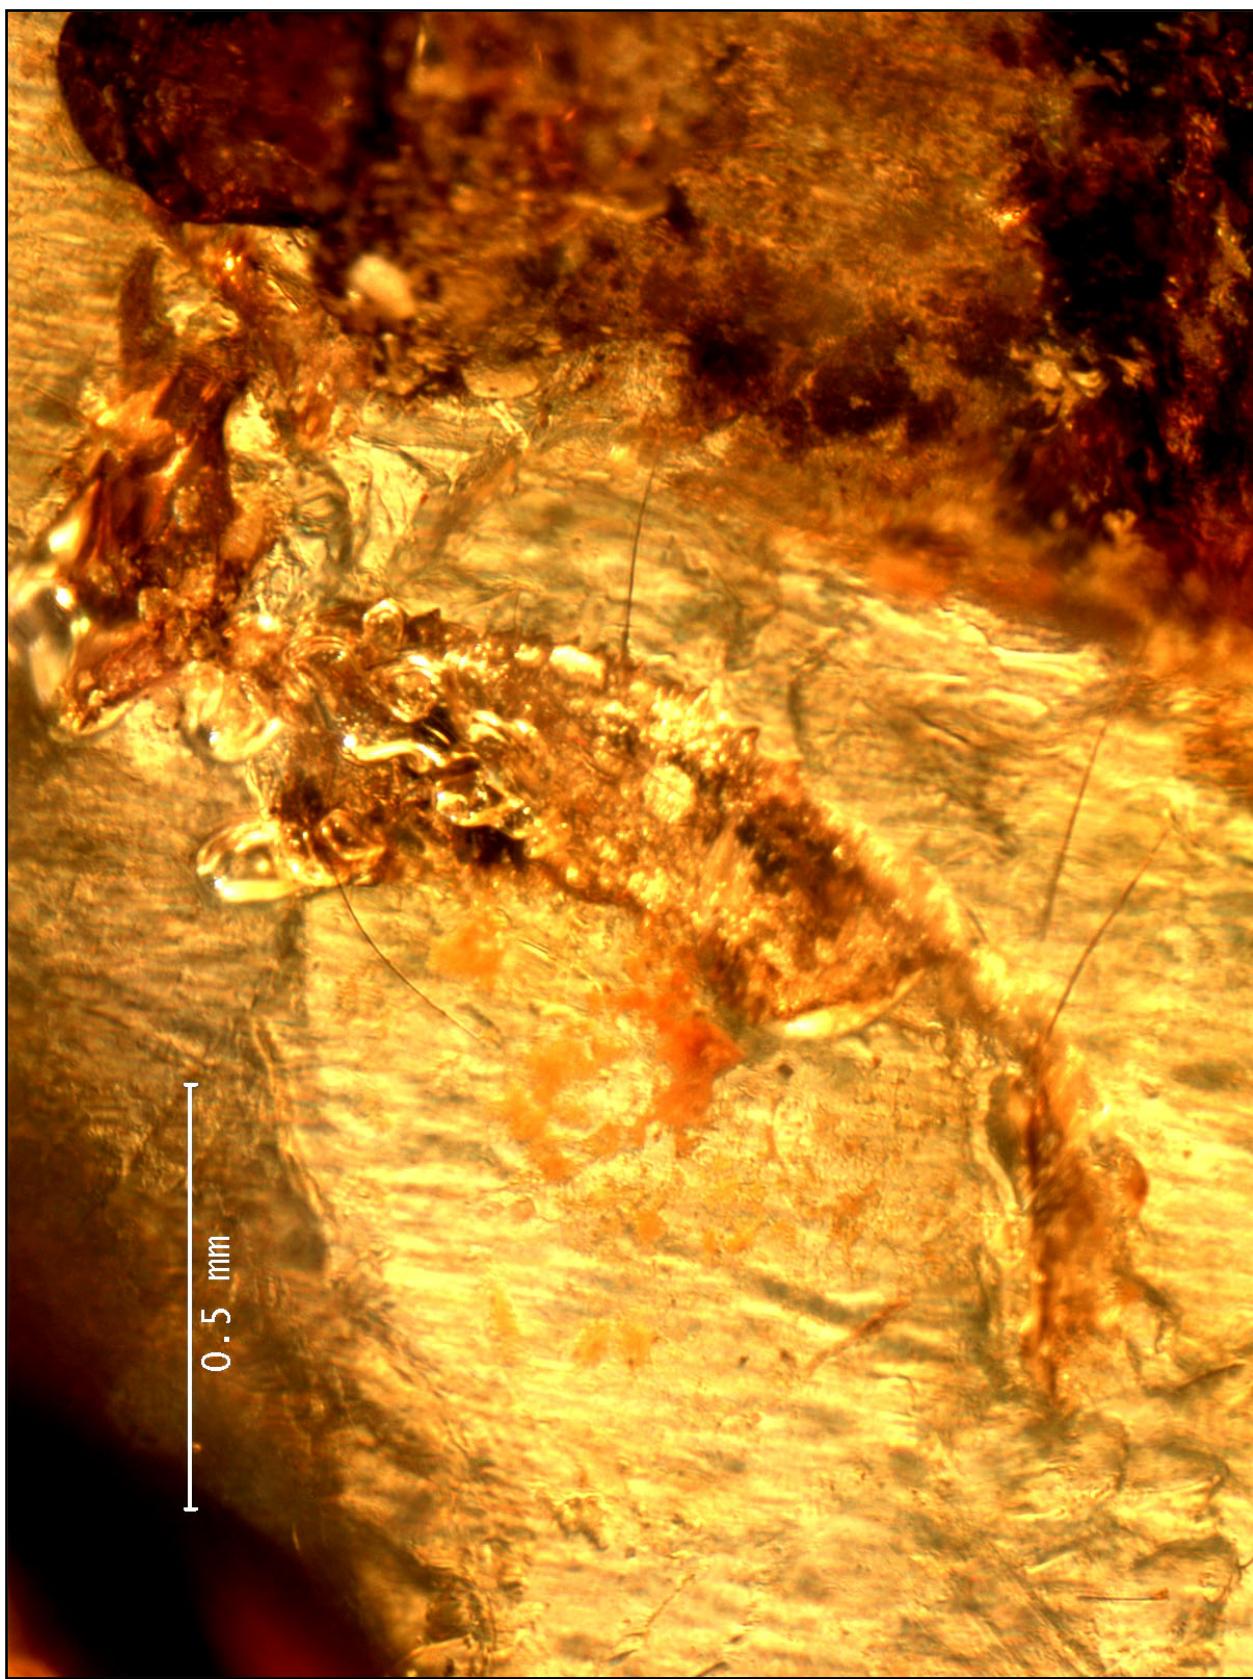

Figure 46: *Archaeobuthus estephani*. Dorsal view of left pedipalpal femur and patella (basal extremity only) showing trichobothria *i* and *e₃* on femur and *d₁* and *eb₁* on patella.

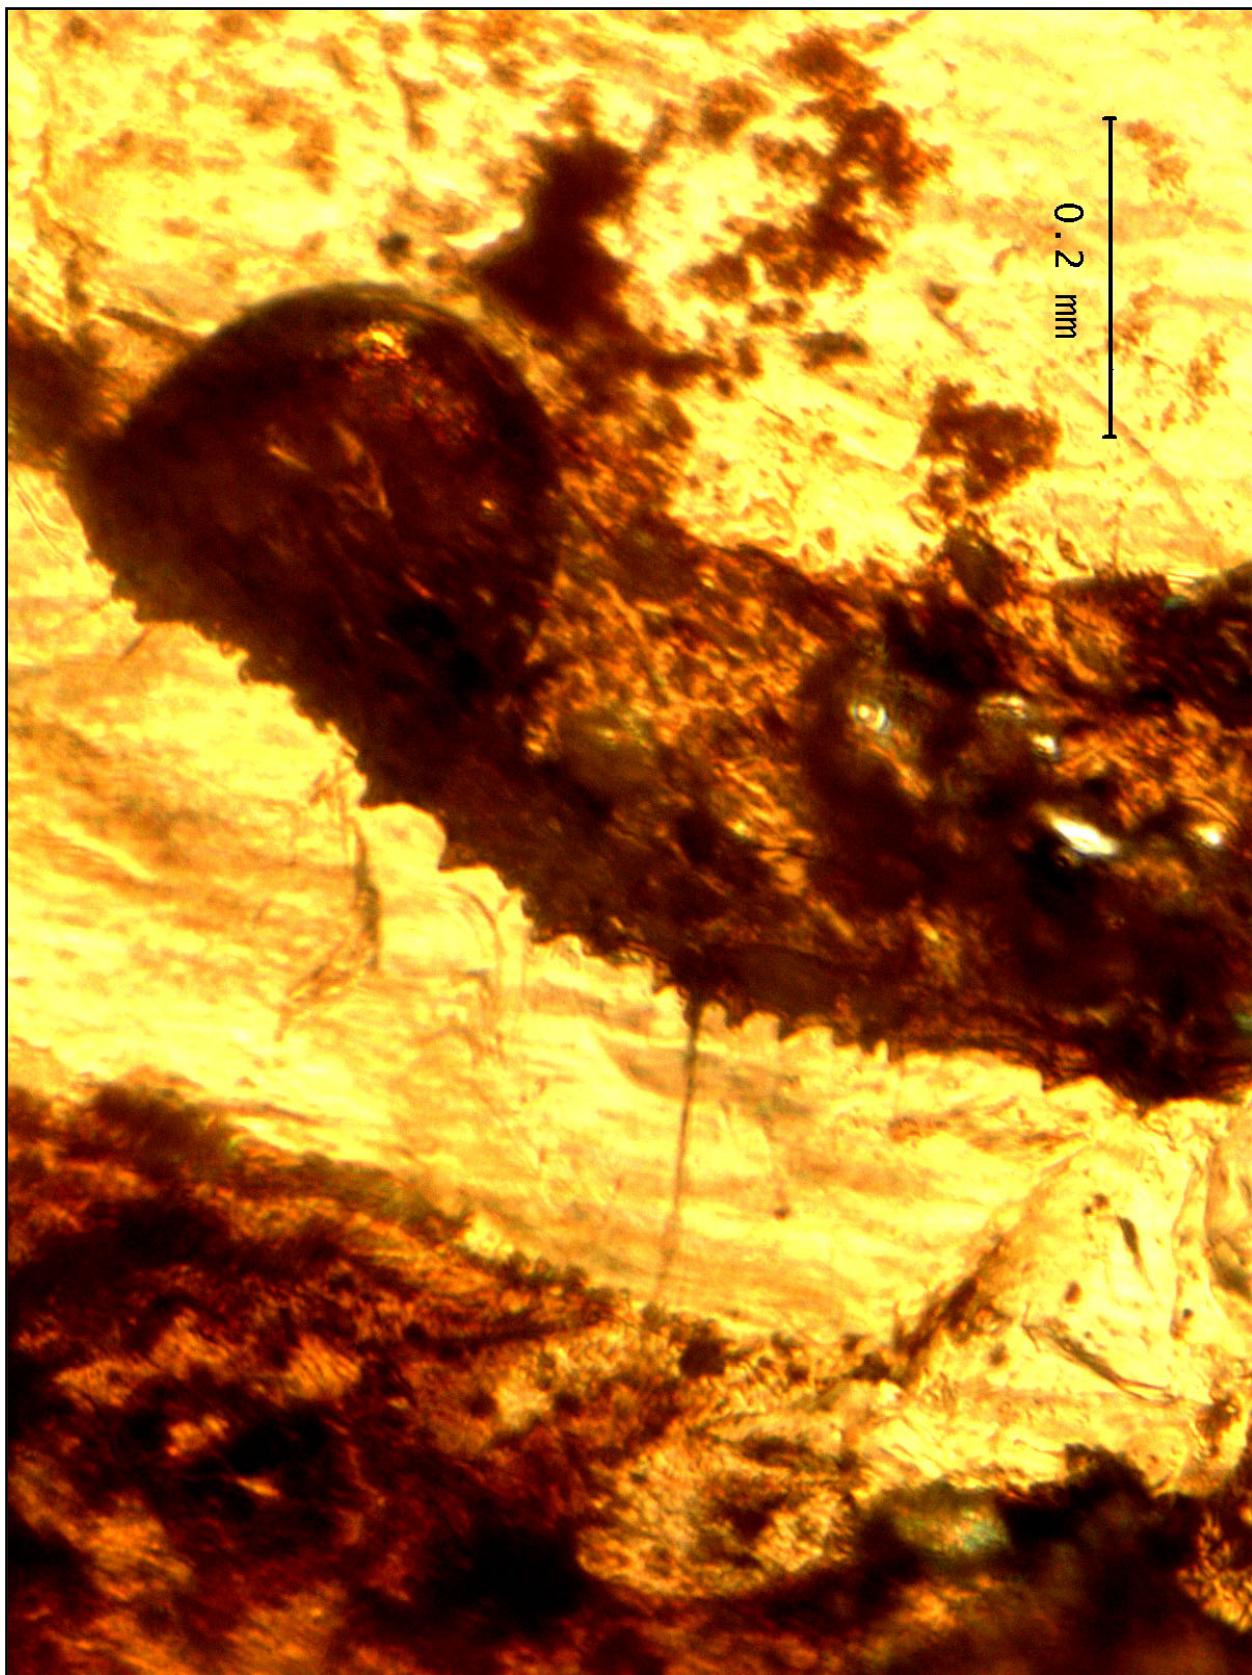

Figure 47: *Archaeobuthus estephani*. Left pedipalpal femur dorsal view showing trichobothria *i* and *e*₃, and the heavy serration of the ventroexternal carina.

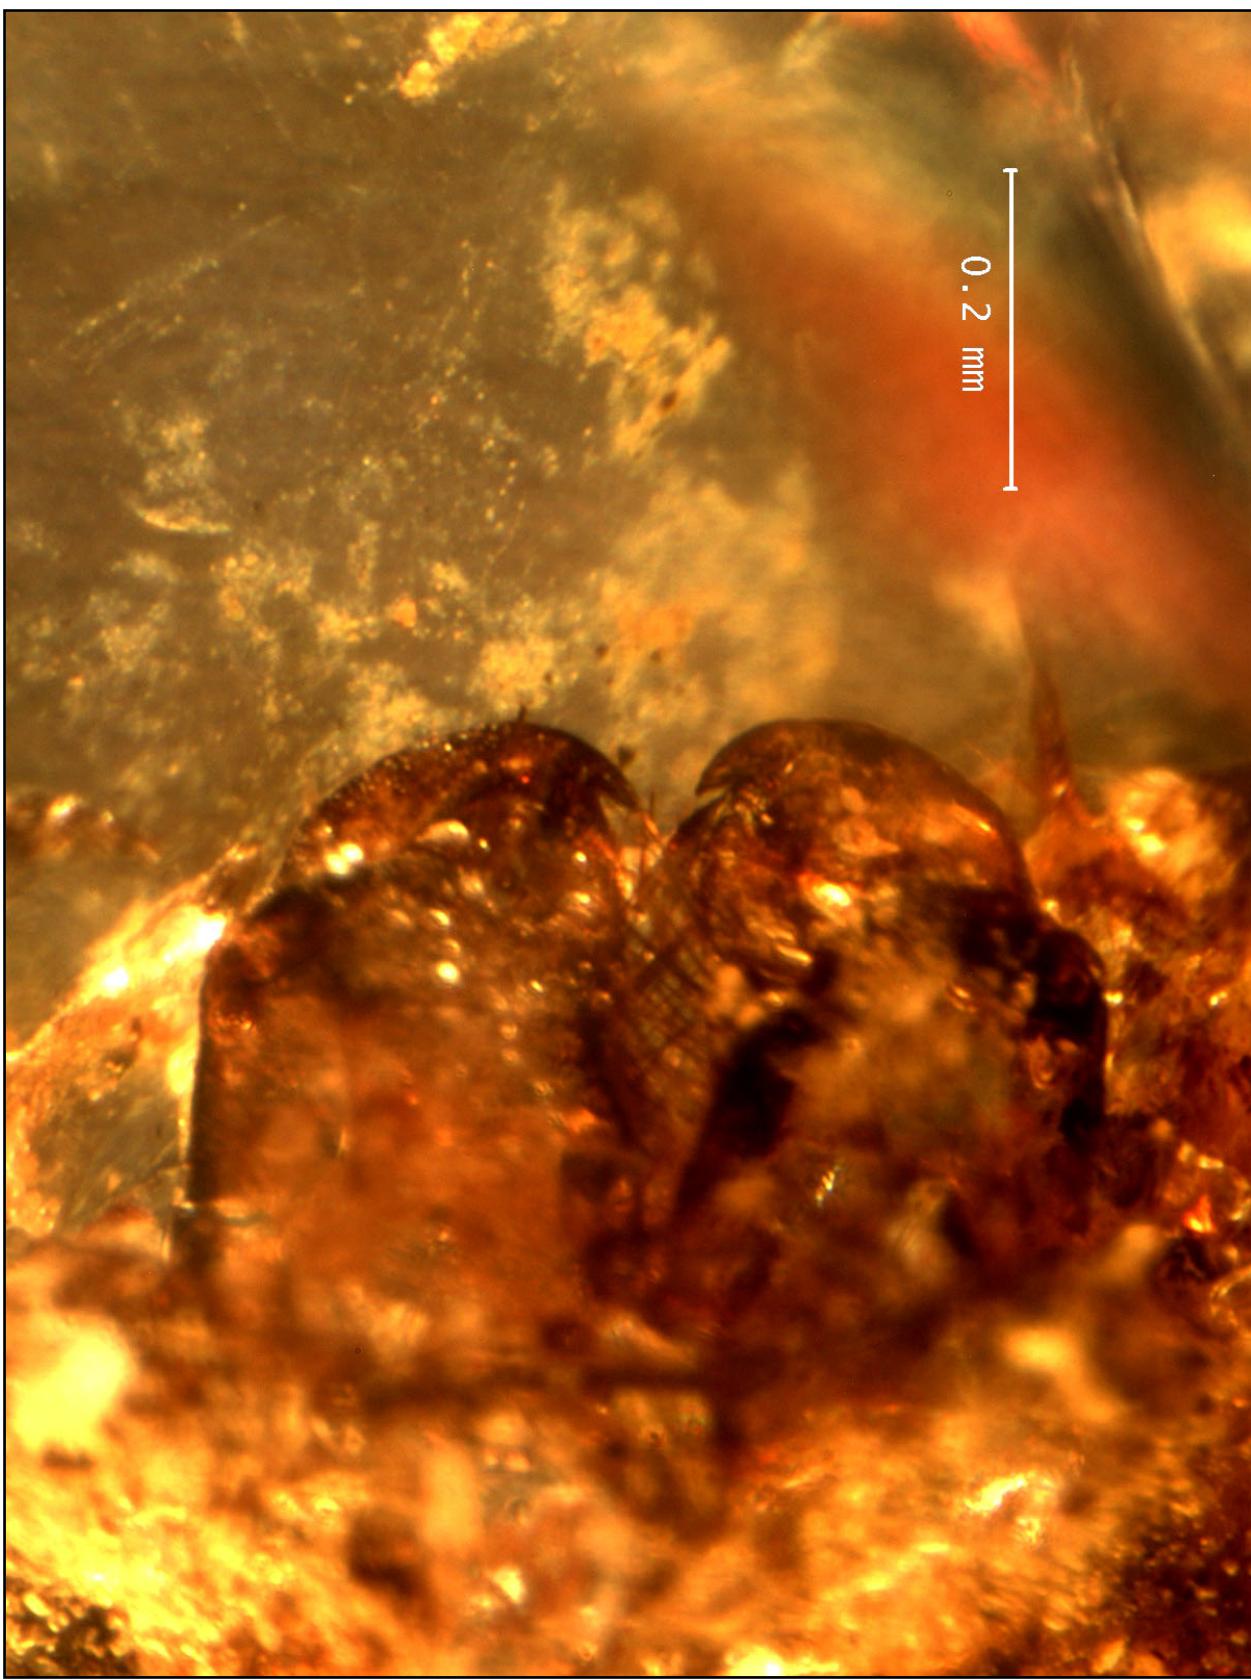

Figure 48: *Archaeobuthus estephani*. Closeup dorsal view of chelicerae.

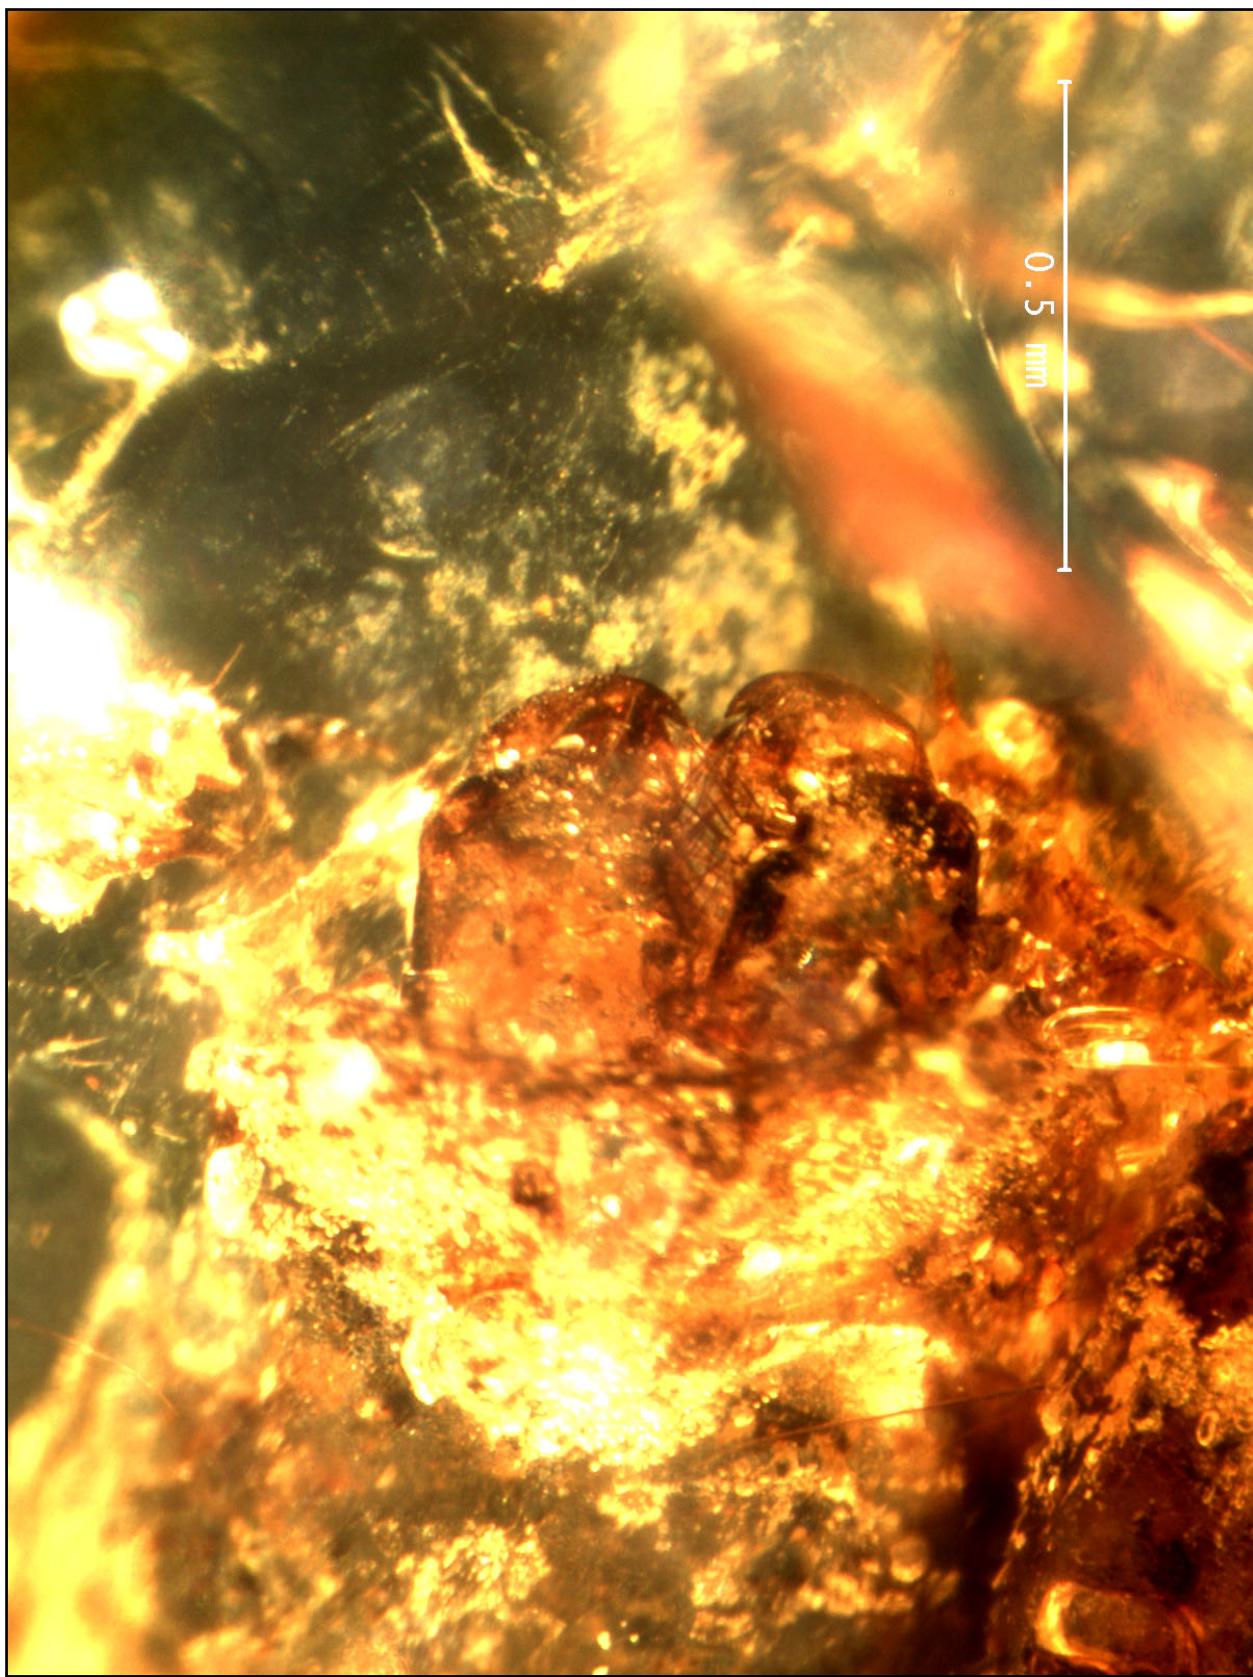

Figure 49: *Archaeobuthus estephani*. Dorsal view of carapace anterior edge and chelicerae.

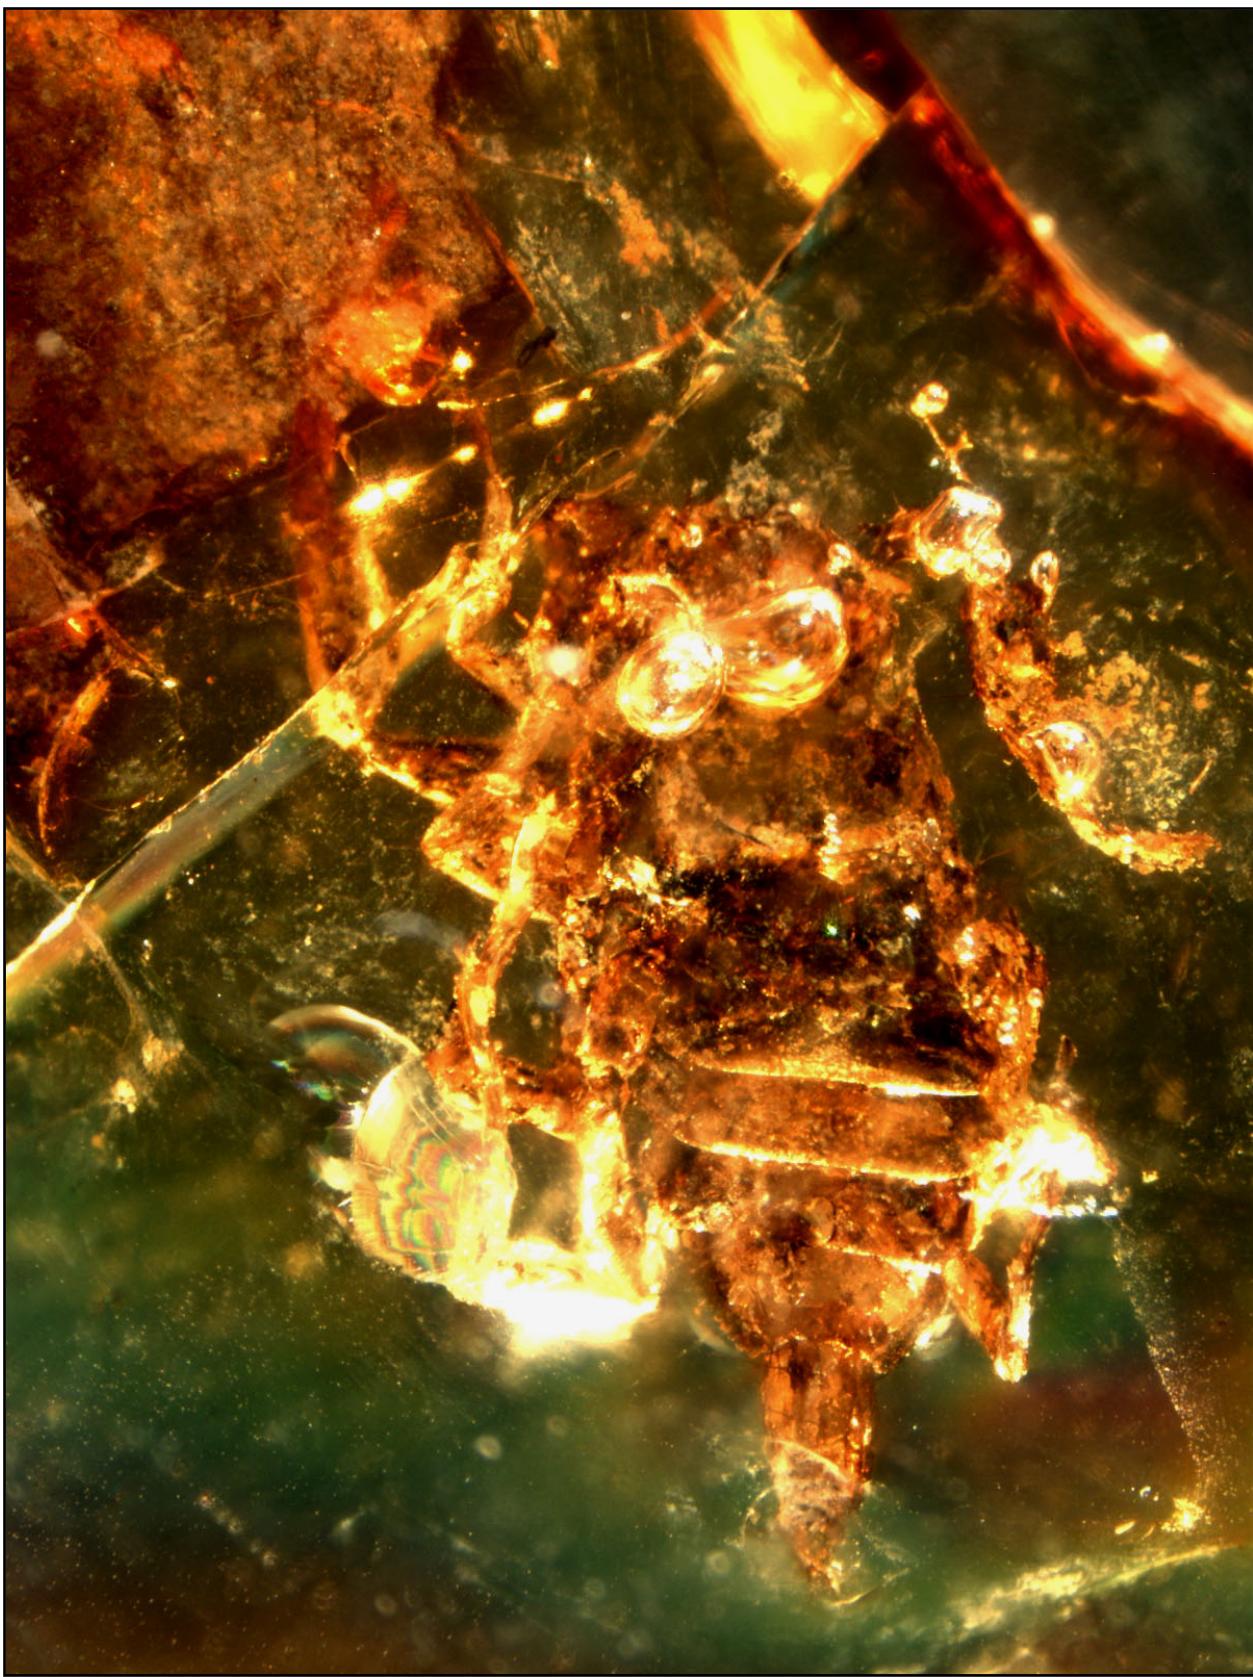

Figure 50: *Archaeobuthus estephani*. Overall ventral view.

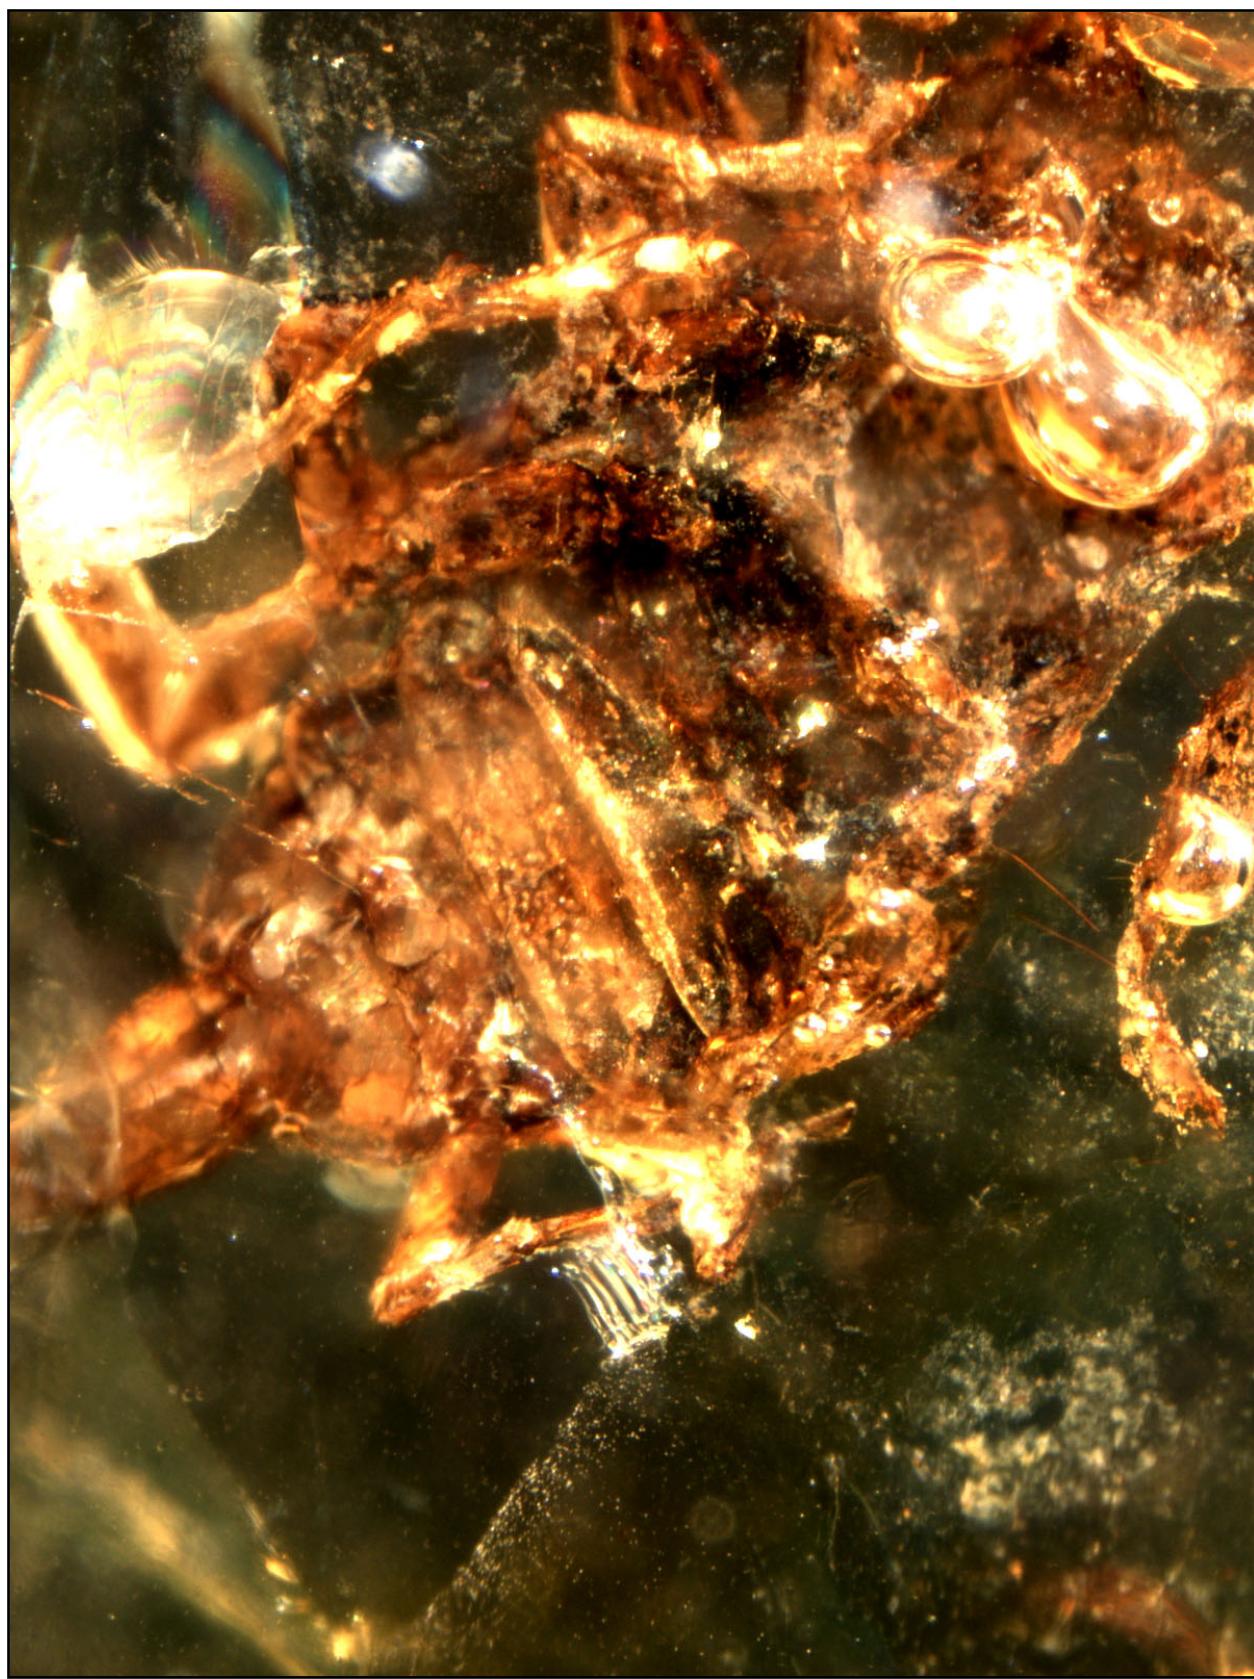

Figure 51: *Archaeobuthus estephani*. Ventral view showing sternal plates and metasomal segment I.

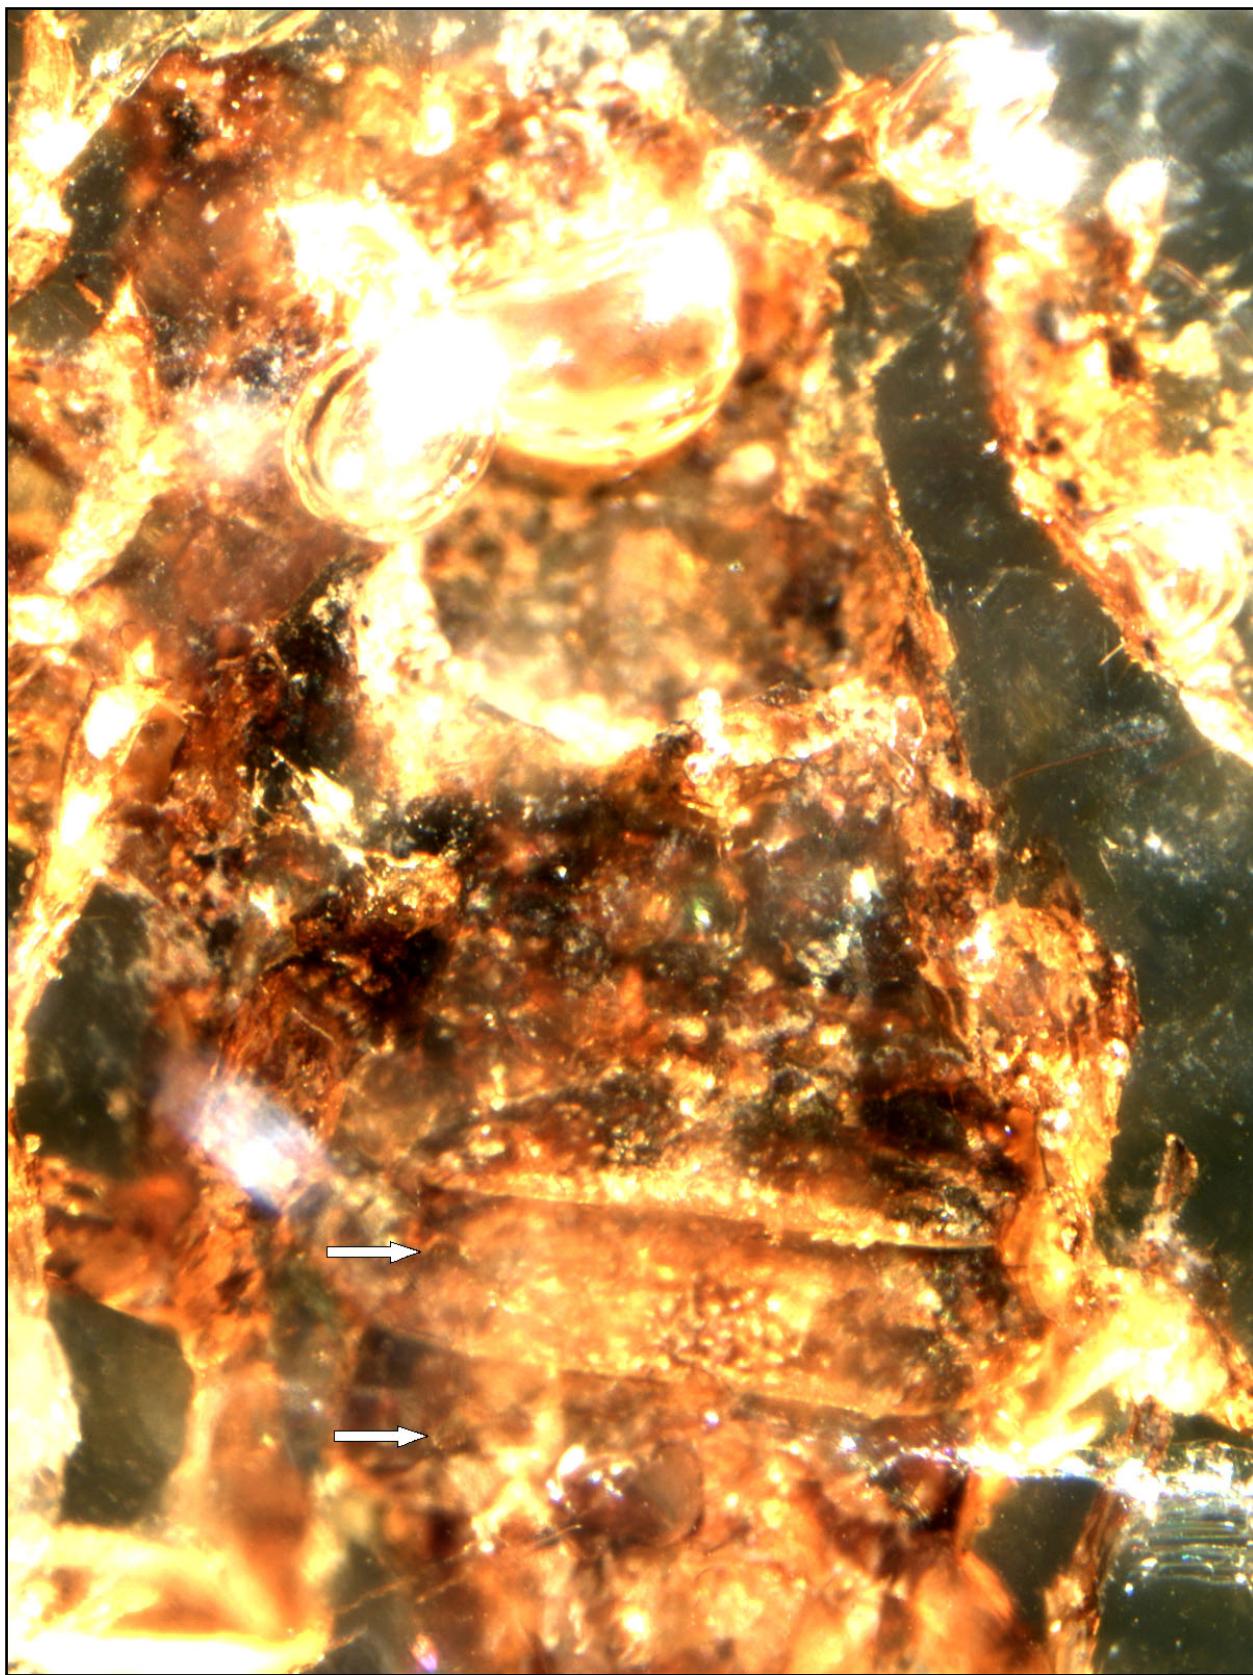

Figure 52: *Archaeobuthus estephani*. Ventral view showing right stigma (indicated by white arrows) on sternites III and IV.

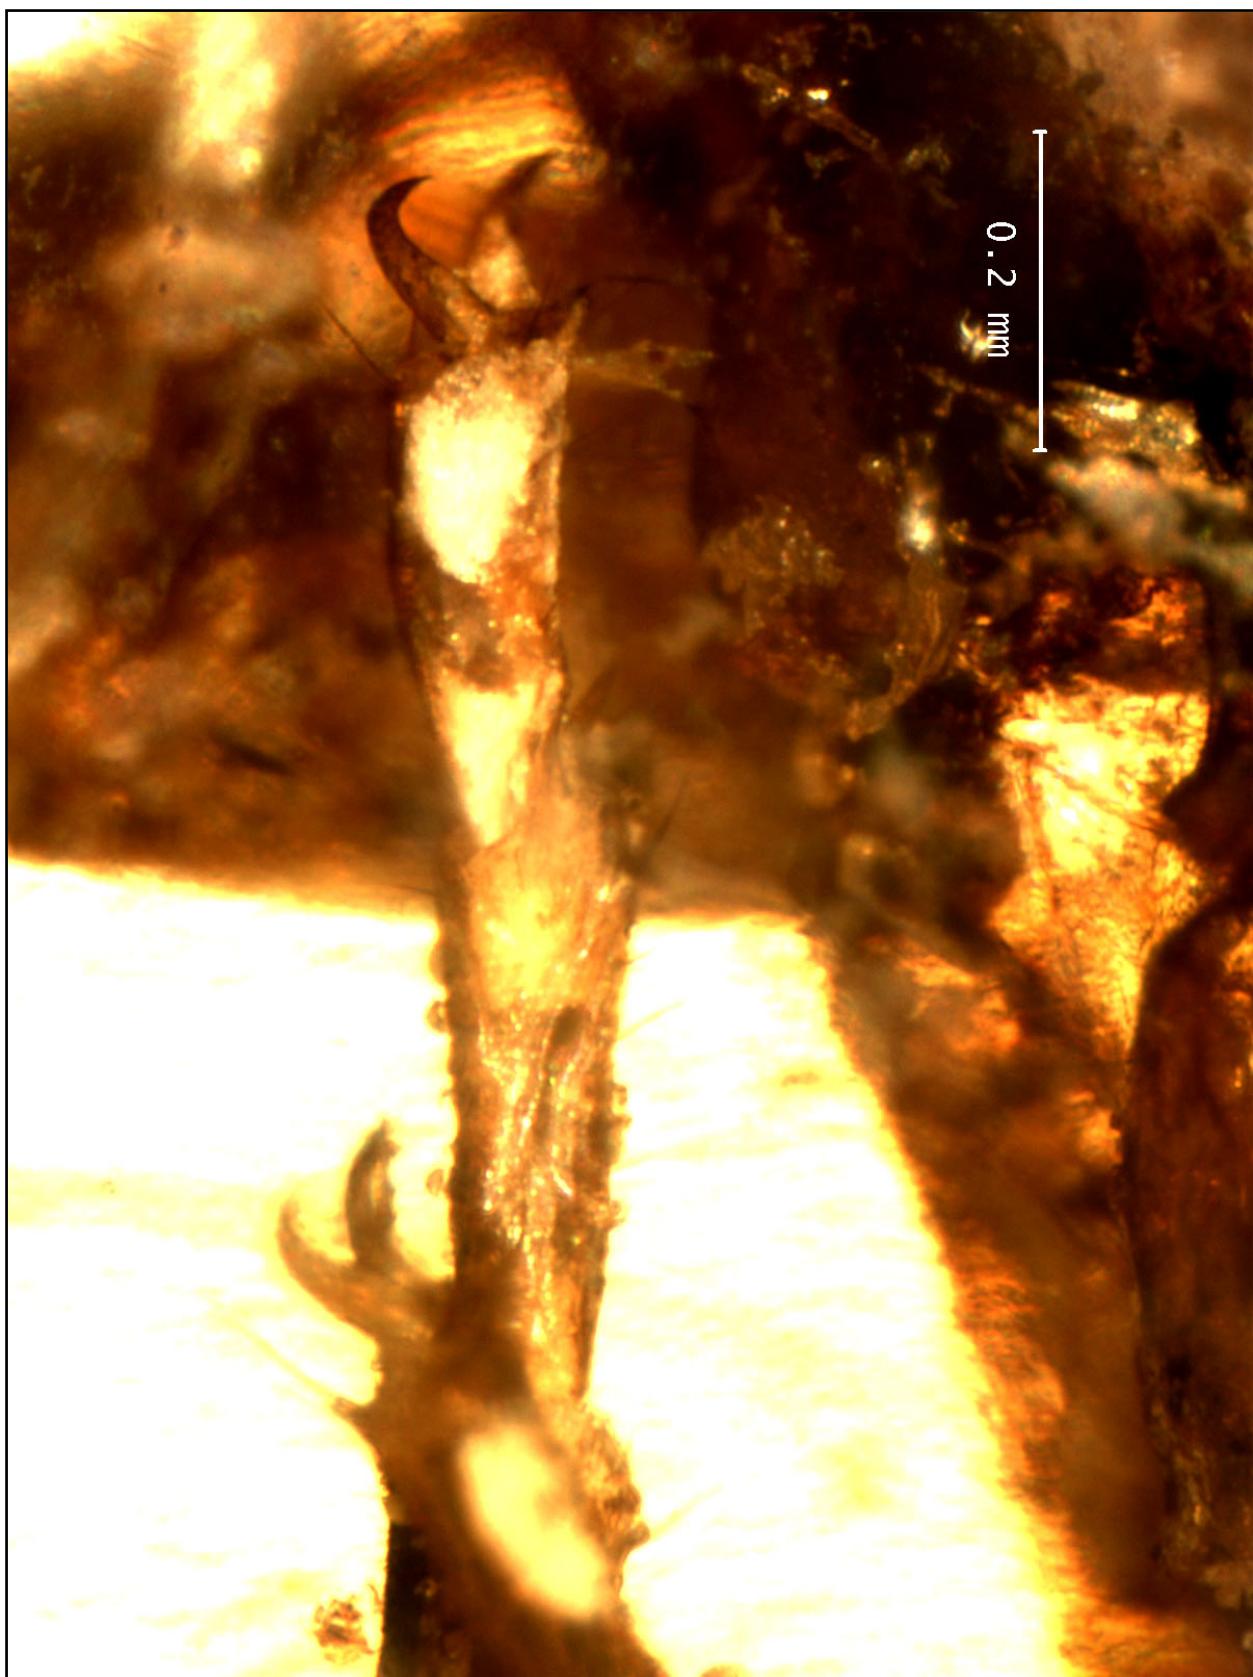

Figure 53: *Archaeobuthus estephani*. Right leg III showing basitarsus, tarsus, epitarsus, and retrolateral pedal spur.

Figure 54: *Archaeobuthus estephani*. Right leg IV showing tibia (partial), basitarsus, tarsus, epitarsus, and pedal spurs.
