

Students from James Monroe HS had a fun time today at one of the Spring Projectile Motion Workshops held by [Dr. Sean P. McBride](#) in the [Department of Physics](#) at Marshall University. The event was sponsored by the Physics Department within the College of Science. [Society of Physics Students](#) members Emily Sutherland (President of SPS) and Emma Lockyer (Social Media Officer) assisted with guiding the students through the kinematics equations in two dimensions associated with projectile motion.
